

# Nguyen Thanh Vinh

## Intern

### SKILLS

#### Programming language

Typescript, Javascript

#### Framework

ReactJS, VueJS, Redux, TailwindCSS, ExpressJS

#### Database

MySQL, MongoDB

#### Other

Git, Github, Rest API, Scss, SocketIO, Vite, VSCode, Linux, Docker

### EDUCATION

Can Tho university  
Information technology  
2019-2023  
GPA: 2.99/4.00

### FOREIGN LANGUAGE

#### Toiec (450)

Can read documents

### INTRODUCE

I am a 4th year student majoring in Information Technology of Can Tho University. In the past time, I have been exposed and familiar with programming techniques, knowledge of OOP, data structures, algorithms, web programming with Vue JS, Express, PHP MVC. In addition to studying at school, I also practice and have other good skills in ReactJS, Node JS, MySQL and Typescript. I am a person who loves Typescript and loves to learn new technologies. In terms of teamwork style, I am a good listener, sociable, know how to help others and tend to work well in groups.

### PROJECT

#### Fast Food

10/2021

**Desc:** Is a sales website that allows users to search and order fast food.

**Front-end:** Html, Css, Javascript, bootstrap

#### Responsibility:

- Interface design/programming
- Implement order function

**Github:** [www.github.com/vinh466/FastFood](https://www.github.com/vinh466/FastFood)

#### VNMart

3/2022

**Desc:** Is a sales web application that allows users to search and order groceries, manage and statistics products.

**Front-end:** Html, Css, Javascript, Bootstrap

**Back-end:** PHP, MVC, MySQL, Apache

#### Responsibility:

- Interface design/programming
- Implement product search and order function
- Implement product management function for admin
- Database model design
- Deploy CURD with database back-end

**Github:** [www.github.com/vinh466/CT275-VNMart](https://www.github.com/vinh466/CT275-VNMart)

## iPcPart

10/2022

**Desc:** Is a sales web application that allows users to search and order computer components, manage and statistics products.

**Front-end:** VueJS, Pinia, Axios, Typescript, SCSS, Vite.

**Back-end:** Express, Typescript, MongoDB, JWT auth, RestAPI.

**Responsibility:**

- Interface design/programming
- Implement the function of searching, filtering, ordering products
- Implement product management function for admin
- Deploying Pinia for Front-end Data State Management
- Database model design
- Implement CURD with Database
- Implement REST API
- Using JWT in user authentication

**Github:** [www.github.com/vinh466/ipcpart](https://www.github.com/vinh466/ipcpart)

## Socialfly

3/2023

**Desc:** Is a social networking web application that allows users to connect with each other, share posts, interact with each other's posts, online messaging, and real-time call/video chat.

**Front-end:** ReactJS, Redux, Typescript, SocketIO, Peerjs, Vite, Tailwind.

**Back-end:** Express, SocketIO, Typescript, Prisma (MySQL ORM), JWT auth, MySQL, RestAPI

**Responsibility:**

- Implement finding function, suggesting and making friends
- Implement managing function and interacting with posts
- Implement text chat, voice/video calls
- Implement user profile management function
- Implement Redux for Front-end data state management
- Database model design
- Implement CURD with database
- Implement SocketIO to implement real-time functionality
- Implement REST API, Prisma
- Using JWT in user authentication

**Github:** [www.github.com/vinh466/socialfly](https://www.github.com/vinh466/socialfly)

## CERTIFICATE

**TOEIC (10/2022)**

- 450/990 points, can read and listen to basic English
